

PRESENTS

METAL IN MOTION

BRAND NEW IDEAS
FOR CREATIVE EXPERIENCES

BORN IN THE
UNITED KINGDOM

BRED AROUND
THE WORLD

EuroArt has two main distribution hubs - Blackburn, UK and Jebel Ali, Dubai, UAE. The Blackburn distribution centre serves the European market, whereas the Jebel Ali centre serves the Middle East, Asia, and Africa.

Our strong logistics network helps us build a worldwide presence by managing the supply chain flow from our factories to our warehouses and ensuring products reach the final consumer efficiently.

INSPIRE EMOTION

METAL IN MOTION

Architectural ironmongery is crucial in delivering meaningful interaction for users. Within every well-designed space lie the details - the functional touchpoints where the user interfaces with lever handles, pull handles, bathroom turns, coat hooks, and cabinet fittings. These points create

interactive pauses, where the natural movement of the user is pleasantly interrupted, offering an opportunity to experience thoughtful detailing.

EuroArt presents its fresh inspirations for designers and end users - Metal in Motion - a collection researched

and developed with the latest design trends in mind. Each piece is created from mechanical components that complement performance-driven materials designed for durability, long-lasting finishes, and the highest levels of quality.

Our Products

Designed by product engineers and manufactured to world-class standards, our products include door hardware and furniture fittings constantly upgraded with continuous research. EuroArt has proven its ability to design and produce stunning products that meet design intent.

Our Services

Our reputation for quality products dates back to 1986 in the UK and to 2006 in the MENA and South Asia regions. Our services include developing hardware schedules by qualified industry personnel and partnering with stakeholders to deliver value-for-money products and timely services.

Our Commitment

- Provide certified products
- Partner with stakeholders to deliver value for money
- Coordinate with door suppliers, consultants, and multiple subcontractors
- Offer adequate warranties against manufacturing defects
- Ensure prompt after-sales support

Our Certifications & Accreditations

Served effectively

COMMITTED TO
CRAFTSMANSHIP

Welcome to Metal in Motion. Door hardware is more than a way to open, close and secure a space. To us, it is an integral part of a design theme.

In modern buildings, design and functional convenience must blend seamlessly, with an exquisite entrance often setting the tone. We focus on high-quality product innovation and new technology.

EuroArt (UK) Ltd., with operations in Blackburn, UK, develops and manufactures a comprehensive line of door hardware and furniture fittings. Continuous research, new technologies, and innovative design have positioned us among the world leaders in durable products with exceptional aesthetic value.

We have established a dedicated export office with a clear and challenging responsibility: coordinating export activities across all regions.

EuroArt plays a critical role in supporting international architects, contractors, and multinational corporations that demand sophisticated, quality products in every corner of the globe. Through specification writing, consulting, and product selection, we offer unmatched product solutions for today's modern buildings, alongside worldwide local support through our vast network of partners and distributors. Fine Buildings, whether new structures or refurbishment, will always need fine quality fittings and Euro Art will be here to provide them, now and in the future.

We hope you enjoy our latest launch of Metal in Motion.

The company embraces the values of customer satisfaction and innovation, integrating these core values into every aspect of its business. By working with EuroArt, you will have access to a whole network of specialist knowledge and product excellence.

ENGINEERED TO LAST

Design Advantage

- Unique designs and shapes that avoid static, uniform appearances
- All hardware products in a space designed to create a unified feel and appearance
- Apart from visual impact, certain designs are revolutionary in nature - such as Flip and Sukun

Materials and finishes

- Solid 316 stainless steel grade materials
- PVD-coated black and satin brass finishes
- Total of 24 finishes in the range

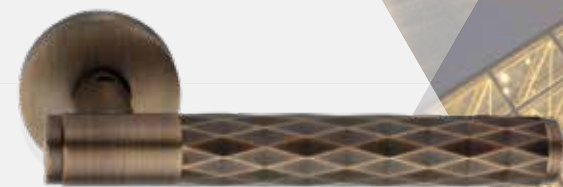

Engineered to last with solid 316 Stainless Steel material, combined with a unique design and concealed bearing technology.

Concealed bearing technology

- Lever handles are manufactured with ball bearing technology
- 4mm thick roses
- Anti-friction technology
- Noiseless
- Prevents progressive drooping

PRISMA

A SPECTRUM OF SOPHISTICATION.

Prisma brings a touch of artistry to everyday design. Inspired by the geometric beauty of prisms, this door handle features facets that play with light and shadow, creating a captivating visual effect. Prisma is perfect for spaces that appreciate subtle detail and refined elegance.

THE DESIGN PHILOSOPHY

Prisma captures geometry in motion - a faceted play of elegance, shadow, and shine.

GEOMETRIC
BEAUTY,
REDEFINED.

Hexara is a series of handles and accessories that celebrates the beauty of precision and geometry. Inspired by the timeless hexagonal shape, Hexara combines clean lines and intricate patterns to create a bold yet sophisticated design. Its unique structure offers both visual appeal and functionality, making it a striking addition to any space. Whether featured in contemporary interiors or classic settings, Hexara's modern form and enduring style make every detail stand out. With Hexara, transform the ordinary into a statement of geometric elegance.

THE DESIGN PHILOSOPHY

Hexara turns precision into presence - bold,
balanced, and beautifully structured.

THORR

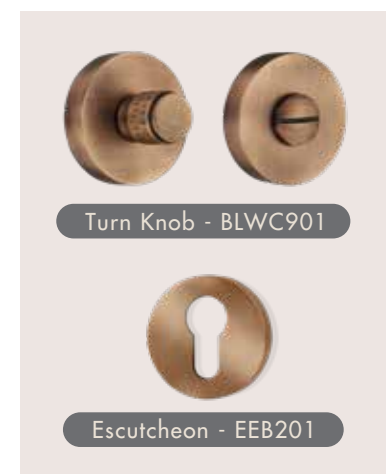

STRENGTH FORGED
IN DESIGN.

Thorr embodies power and durability, inspired by the raw strength of its namesake. With its bold, rugged design, Thorr offers a solid, reliable grip that commands attention. The textured finish enhances both function and aesthetics, creating a handle that feels as strong as it looks. Perfect for spaces that demand resilience without sacrificing style, Thorr brings an undeniable presence to any entrance.

THE DESIGN PHILOSOPHY

Thorr stands firm in form and feel - a bold union of power, grip, and grit.

LINEA

PURE CLASS IN
EVERY LINE.

Linea is the embodiment of refined simplicity, offering a sleek, streamlined design that enhances any space. Inspired by the purity of straight lines, its minimalist form brings clarity and balance to your entryway. The smooth, elongated surface of Linea provides a comfortable grip, while its clean, modern aesthetic adds a touch of sophistication.

THE DESIGN PHILOSOPHY

Linea distills design to its purest form - clean lines, quiet confidence, effortless grace.

MATRIX

PRECISION MEETS POWER.

Matrix is defined by its bold, geometric design and precise craftsmanship. The textured finish offers both a strong grip and a modern aesthetic, making it an ideal choice for spaces where functionality and style intersect. Its sleek, durable design ensures lasting performance, while its striking appearance leaves a lasting impression. Matrix is more than a handle—it's a symbol of precision and power in design.

MATRIX

BY EUROART

HARPER

GRACE IN
EVERY CURVE.

Bring the elegance of the harp into everyday design. Inspired by refined beauty of this classic instrument, Harper combines sleek lines with a graceful form, offering a tactile experience that feels as harmonious as the music it represents. Its smooth finish and subtle details create a sense of rhythm and sophistication, making it a perfect addition to any space that values both artistry and function.

THE DESIGN PHILOSOPHY

Harper draws from the timeless grace of the harp - fluid, refined, and quietly resonant in form.

MOTIF

SLEEK FLAIR IN EVERY GRIP

Motif is more than a door handle; it's a design statement. With its intricately textured finish, Motif combines form and function, offering a tactile experience that elevates any entryway. The detailed pattern not only enhances grip but also adds a layer of visual sophistication, making it the perfect choice for spaces that value both style and substance.

THE DESIGN PHILOSOPHY

Motif turns texture into a tactile signature - designed to delight the eye and anchor the hand.

INTEGRATED LOCK LEVER

Integrated lock levers combine the handle and locking mechanism into a single, streamlined unit. Ideal for modern interiors, they eliminate the need for separate locks or bulky fittings, offering a clean and cohesive look. With options for key, thumb-turn, or privacy mechanisms, they enhance both security and aesthetics - making them perfect for doors where form and function must go hand in hand.

Cabinet handles play a central role in both the look and feel of your furniture, bringing together form, comfort, and durability in a single element. With styles ranging from minimal to ornate, each handle is crafted to offer a confident grip and a refined aesthetic that enhances the character of your cabinetry.

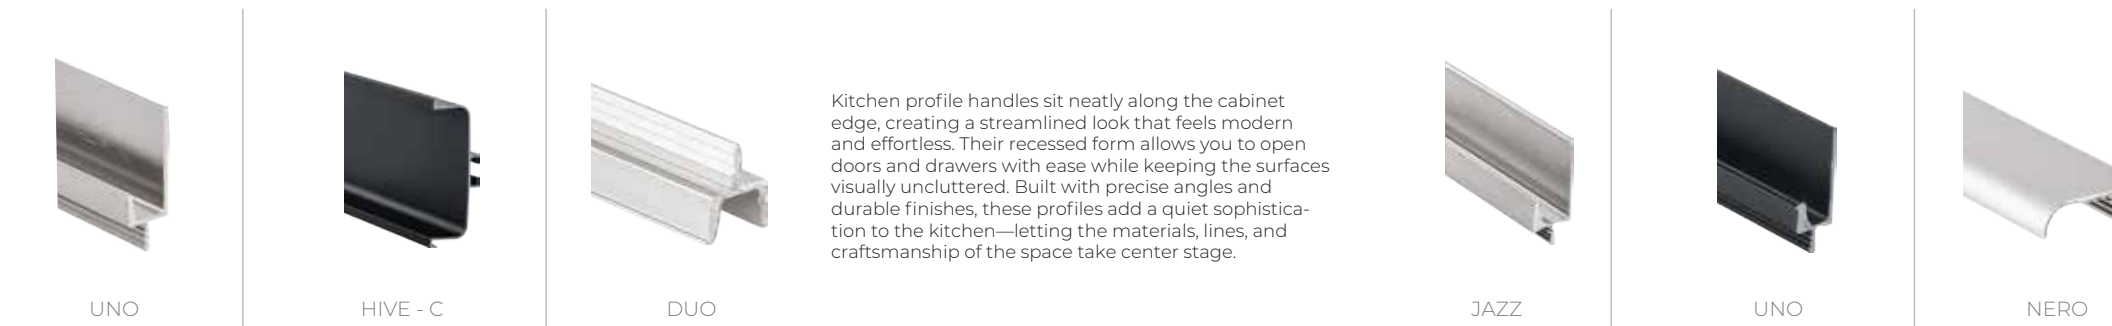

PROFILE HANDLES

Designed to integrate seamlessly into cabinetry, these handles deliver a clean, modern aesthetic that enhances any interior. With forms engineered for effortless grip and finishes crafted for long-lasting performance, each profile creates a subtle yet confident design statement. Whether for wardrobes, drawers, or bespoke built-ins, they bring together comfort, craftsmanship, and minimalism—giving every space a refined, uninterrupted flow.

KITCHEN PROFILES

Kitchen profile handles sit neatly along the cabinet edge, creating a streamlined look that feels modern and effortless. Their recessed form allows you to open doors and drawers with ease while keeping the surfaces visually uncluttered. Built with precise angles and durable finishes, these profiles add a quiet sophistication to the kitchen—letting the materials, lines, and craftsmanship of the space take center stage.

DOOR PIVOTS

Stealth Pivot is a compact and innovative pivoting hinge system that can be fitted inside virtually any door leaf. The pivot hinge features a high-tech comfort closure that works in all swing directions up to 360°. When fitted and installed, the hinge remains invisible, hence the name "Stealth Pivot".

HEAVY DUTY PIVOT

Revolve Pivot mechanism for 500kgs doors.
2 types: Revolve 90 and revolve free

REVOLVE 90

Precision pivot with 90° soft stops and 20° return. Smooth, controlled motion with hidden hardware.

REVOLVE FREE

360° rotation with fully concealed hinges. Built for heavy doors with clean, seamless movement.
