FORM INFUSED WITH FUNCTION

The first reaction to Blend is - "it's impossible!" What starts as a square ends in a circle - and that too, in metal. Blend makes that journey of form seamlessly, without a single instance deviation in contour, consistency or finish. The design is unprecedented and the motion is one of sheer evolution - inspiring interaction and engagement.

THE DESIGN PHILOSOPHY

The very essence of metal in motion. The shape transforms seamlessly from square to round.

A SUBTLE TWIST
IN THE PLOT

There's a twist in the plot! Every piece in the Twirl collection has the unexpected, twisting motion created not just for style but also for functionality. The angle and area of twist is designed to ensure the grip is ergonomically comfortable. Twirl is your choice when you want to inspire your space with discovery and exploration.

THE DESIGN PHILOSOPHY

An unexpected, ergonomic twist in solid metal.

BEVEL

EMBRACE THE UNEXPECTED

A fine example of form that lends itself to functionality. The Bevel collection begins its story with utilitarian authority and ends with a soft, contoured curve that is rooted in human-centred design. The design leads the user gently to the function, while protecting him from sharp ends under the curve.

BEVEL

BY EUROART

THE DESIGN PHILOSOPHY

Solidity with softness and safety.

A JOURNEY OF TACTILE CHANGE

From the solid to the slim - and back, each item in the collection inspires the gentle flow of touch. The evolution is smooth and consistent and creates ease of use through unobtrusive functionality and aesthetic simplicity.

THE DESIGN PHILOSOPHY

Achieves a flat look with a semi-circular shape at the back.
