

## EASV-A101D

### *Features*

THE SV-A101D IS ONE OF EUROART'S HINGED SYSTEMS CREATED TO SAVE SPACE TOWARDS THE OUTSIDE AND CREATE INTERIOR SPACE DIVIDERS FOR MEDIUM WEIGHT OR LARGE FORMAT DOMESTIC USES.

1. A system of hinged sliding panels of 100 kg/pair of panels (concertina type) that allows all the panels to be moved at the same time.

2. It is possible to close an opening of up to 9 m wide by 2.65 m high.

3. High strength rollers and high quality bottom guides to prevent any possible sway in the system.

Note that this solution has solid anti-vandal hinges; so in addition to the fact that the machining is on the inside of the panels, thereby providing a perfect finish, it also provides security in terms of closing.
