

Serenity 400 Series

Features

- The system is designed to divide space through the use of a sliding glass door with anti lift feature
- This design allows more light and add contemporary design to residential, commercial or hospitality projects.
- Mounted along an existing wall/ glass panel generating a greater clear opening
- Ideal for bedroom, kitchen, bathroom entrance, office, lounges, laboratories etc.
- Clear opening free of floor tracks
- Minimal gap between the door and the wall to enhance aesthetic and acoustic feature
- Mechanical stops that can be positioned on the track rail ensure that the door travel distance is effectively limited.
- Minimal use of force required to manually slide the glass elements
- Architectural finishes: SA, Black
