
SMC 3010 - Gravity Coordinator

- Roller arm stops active door from closing before inactive door.
- Active door up to and including 1219mm wide.
- Inactive door up to and including 1036mm wide.
- Both doors over 670mm wide.
- Closing of inactive door causes the strike plate on top of the door to lift the arm and close the active door. As inactive door closes, the nylon roller lifts the coordinator arm.
- Gravity arm and door brackets are field-adjustable for installation ease.
- Standard finish = Satin Stainless Steel.

EA3700 Series - Door Coordinator

- Heavy duty coordinator.
- For use on pair of doors when one door must close before the other.
- Active door lever holds the active door open until the inactive door closes enough to trip the release Mechanism.
- Safety override allows active door to close first when extreme force applied.

Item Code	Door Width
EA3701	1500
EA3711	1500-1800
EA3721	1800-2400
EA3731	2400-2645
EA3741	2500-2800
